## US vs EU Who worse?

Among the revolutionary people of Venezuela, all kinds of aggressions are multiplying. These people know what Washington is promoting: blocking its first-class products, including against the global pandemic, hijacking its companies, threatening invasion and attacking its president, all this to promote a popular revolt and justify an intervention in the name of freedom in the style of its usual strategy to seize the wealth of others.

But this people knows the history of the USA, a nation created by European adventurers who, to conquer their territory, exterminated a large part of the natives; to expand it invaded neighboring nations; to become a world power, it bombed defenceless civilian populations; and with the intention of dominating the world, he established military bases around the world. In Latin America, with direct or covert actions, it continues to overthrow and assassinate progressive presidents to impose others more submissive.

In contemporary times, Washington changed its strategy of military operations to alliances with "contractors" and servile governments. Last October, with the complicity of the government of Cape Verde, he kidnapped Venezuelan diplomat Alex Saab on a mission against the blockade to obtain supplies of fuel, food and medicine. In December, he managed to get the Netherlands to ban an official flight of the Venezuelan vice president to appear before the International Criminal Court in The Hague.

Alineados a Washington, países de la Unión Europea como Inglaterra, Portugal, España, Alemania, Holanda y Francia, brindan protección a prófugos de la ley venezolana por delitos de incitación a la violencia con víctimas fatales, golpes de Estado, secuestro de bienes y sin decencia reconocen un títere autoproclamado presidente de Venezuela. Son cómplices para bloquear cuentas bancarias y reservas de oro que Venezuela depositó en sus bancos.

But the Venezuelan people face unilateral sanctions with courage and dignity, well aware of who and why they induce them. He manifested this in his last elections when he resoundingly defeated what he describes as his stateless opposition.

Dignity would be if the British justice system did not submit to Washington to extradite the journalist Julian Assange for having revealed to the world the crimes against humanity committed by the US. Dignity would also be that the big media do not continue to lend themselves to subtle or rude lies, to manipulate the popular mobilizations that cry out to save Assange's life.

US vs. EU? Judge the reader for himself, in the face of criminal sanctions who is worse: the intellectual author or the material author.
