THE BLACK BOOK OF CAPITALISM. Free book

Capitalism is everywhere and nowhere. To whom to address the summonses to appear before a possible tribunal in Nuremberg?

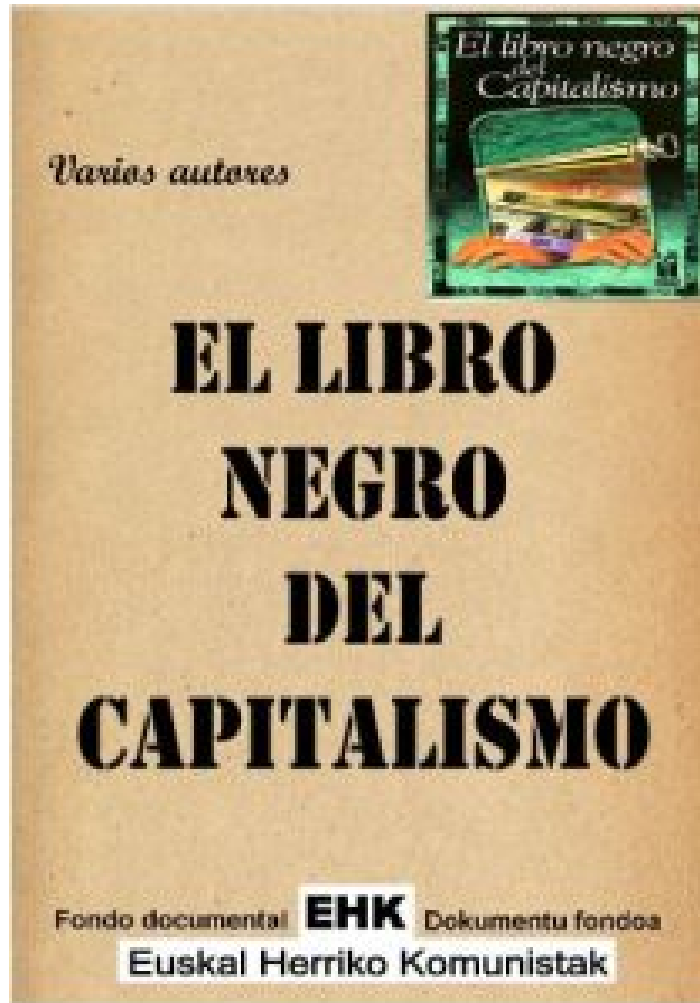

Capitalism is the greatest genocide in history, a murderer without a face or genetic code that, in modernity, they call liberalism. He leaves no traces and his crimes are almost perfect. Its protagonists are indices and balance sheets: Dow Jones, Nikkei... The dead and the living are their victims, those children of the so-called Third World whom malnutrition kills daily by tens of thousands, those peoples condemned to repay the interest on an endless debt, that innumerable crowd of deportees and displaced, dismembered in the trenches of any senseless war, burned alive by napalm. Capitalism is everywhere and nowhere. To whom to address the summonses to appear before a possible tribunal in Nuremberg?

This work has been converted to a digital book for internal use and for the study and research of Marxist thought and the study of capitalism.
