## ***We have to stop the killing machine of political prisoners and recent detainees in Iran!***

*Freedom loving people of the world,*

In parallel with the uprising of the Iranian people, the roar of their revolution has targeted the fundamental principles of the Islamic Republic, that is why the repressive apparatus of this unpopular regime, in order to create the public atmosphere of fear and terror, have resorted to the execution of the imprisoned political prisoners and the recent activists of the uprising's arrestees.

The execution of a 23 year old man - *Mohsen Shekari* - one of the recent detainees of the current uprising, was reported on Thursday, 8<sup>th</sup> of December, 2022. He was murdered on false accusation charges by the criminals who rule our country – Iran. This criminal act of the biased judicial system of the Islamic Republic, led to public anger and hatred, and public outcry, protest campaigns condemning this anti-human act by international organizations, personalities and artists...

The lives of many brave sons and daughters of our country are in danger in prisons and torture dungeons of the Islamic Republic.

Currently, the lives of the many detainees of the recent uprising are in danger of execution, because there is no end to the vengeful madness of the ruling officials. Suppression, long imprisonment, torture, execution, using shotguns, ammunition of war such as Kalashnikovs and machine guns are the only response from the Islamic Republic against the empty handed Iranian protestors and revolutionaries, demanding their basic human rights.

The Islamic Republic executes and hangs the political prisoners, attacks the demonstrators with tear gas, bullets, shotguns, batons, and war weapons. Universities have become garrisons, and prisons all over the country are filled with intellectuals, brave young men and women of our country-Iran.

*Freedom-seeking people of the world,*

Today, it is not allowed to be silent in the face of the Islamic Republic's brutality, torture and execution. Our silence will leave the ruling class's hands more open to continue their usual criminal activities, and we must not be silent witnesses, but to expose and spread more and more of the horrible Islamic regimes crimes.

*Leila Hossainzadeh, SepidehGholian, Toomaj Salehi, Majid Tavakoli, Reza Shahabi, Hassan Saeedi, Davoud Razavi, and hundreds of political prisoners and many labor, women, teachers, artists, writer's activists, and around 20 thousand protesters, who have been arrested in the last eighty-three days of the uprising, are under interrogation and enduring all kinds of medieval tortures.*

We, the signatories of this appeal, call to strongly condemn the heinous crimes committed by the Islamic Republic officials against *Mohsen Shekari*, calling on all progressive organizations and human rights defenders, to not remain silent and do whatever is at their disposal to act upon this, legally.

We believe that by turning a blind eye to the execution of *Mohsen Shekari* will, lead to brutal executions, and all of the recent huge number of detainees, political prisoners and prisoners of *conscience*, must be released immediately and unconditionally, and those responsible for such insane madness actions, must be brought to justice in a competent court.

We will join the spontaneous campaign of condemning the Islamic Republic's crimes against humanity in prisons and declare that our people in Iran have made their decision and demanded the removal of the entire ruling tyranny, and at international levels, the Islamic Republic is not their representative and spokesperson.

We believe that the Iranian people, with their powerful determinations and wills in a nationwide broad voice of solidarity and unity, together, can put an end to and stop the murderous machine of the Islamic ruling regime in prisons.
