White Genocide Is in the Cards That Are Being Played

Three decades ago in my book, *The New Color Line*, I pointed out that Alfred W. Blumrosen, compliance chief of the Equal Employment Opportunity Commission, turned the statutory language of the 1964 Civil Rights Act on its head and used the EEOC to create race-based legal privileges for blacks, thereby reducing white Americans to second-class citizenship. In place of equal employment opportunity Blumrosen and the liberals of the time used “affirmative action” to create and enforce privileges for blacks in university admissions, hiring and promotion. These privileges created in defiance of Congress by a regulatory authority were the opening wedge against our then merit-based system and created the acceptability of racial discrimination against white Americans. At the time the liberals admitted that it amounted to privileged treatment of a race, but said it was to be temporary in order to give blacks a leg up. It has now been 60 years, a time period that is not temporary. As I pointed out, once privilege is set in law, it becomes a property right of the privileged supported by the passage of time and precedent after precedent. Even though the racial privilege is unconstitutional, those privileged by it have squatters’ rights in the privilege.

My book was favorably reviewed by Harvard Law Professor Alan Dershowitz, by Irving Kristol, editor of *The Public Interest*, by Judge Robert H. Bork, by the *New York Times Book Review*, by *The Wall Street Journal*, by the *Washington Post*, by California Governor Pete

Wilson, and many others. Henry Regnery said that my book was the most important work his firm had ever published. Yet my book had zero effect. Three decades after its publication American corporations, universities, and the US military have institutionalized racial discrimination against white Americans.

Carl, Jeremy **Best Price: \$28.00 Buy New \$23.43** (as of 06:13 UTC - Details) 60 years too late Tucker Carlson has raised this issue with Jeremy Carl who has just published *The Unprotected Class: How Anti-White Racism is Tearing America Apart*. As a large percentage of the white population has been indoctrinated into seeing themselves as guilty and undeserving, the white majority is incapable of rectifying its second-class legal status. As the white American majority is rapidly disappearing under the Democrats' policy of open borders and recruitment of immigrant-invaders into the United States, within a few years time not even the theoretical possibility of restoring American whites to equality under the law will be possible. If you want to see your future, read Jean Raspail's *The Camp of the Saints*. *The Camp of the Saints* is an accurate description of the fate of the Western World. We are experiencing that fate now. If you dare to know your future and that of your children and grandchildren, you can read this novel that correctly predicted our future in 1973. The book was a best seller, but the rot had already set in. Today the book is suppressed. You can read it [here](#).

As racial denigration of white ethnicities is institutionalized in every Western government, all white ethnicities can expect the same fate. The fate of white ethnicities is sealed. They have lost their countries and are reviled by their own white governments, universities, and media. They are doomed. Perhaps a few will be kept in zoos as examples of racist evil.
