## IED attack kills 9 Afghans, one US-led soldier in Kandahar

3/25/2012

At least nine people have been killed in an improvised explosive device (IED) attack in Kandahar province in southern Afghanistan.

The attack targeted seven Afghan policemen, a US-led soldier and an Afghan interpreter on Sunday morning, local administration chief of Arghandab district Shah Mohammad said.

The explosion followed a series of violent bomb attacks and blasts across the country with a deadly incident in the same province on Thursday, which claimed the lives of two people.

Over the course of the past year, violence has spread from Afghanistan's volatile south to its relatively peaceful areas, despite the presence of some 130,000 foreign troops in the country.
