CIA-Mossad agents assassinate thousands of Iraqi scholars: Report

3/31/2013

A report reveals that thousands of Iraqi scholars have been assassinated by Israel's Mossad spy agency in collaboration with CIA agents since the occupation of Iraq.

According to the report published by a British magazine, since 2003 over 5,500 scholars have been killed by CIA-Mossad agents in Iraq.

The report added that Mossad has formed secret terror groups to kill Iraqi scientists, intellectuals, researchers and physicians as well as nuclear and chemical experts.

The report also indicates that Israeli intelligence officials ordered the secret terror groups and sent them to Iraq.

On March 19, 2003, US-led forces invaded Iraq under the pretext of wiping out the stocks of Weapons of Mass Destruction (WMD) belonging to the executed Iraqi dictator Saddam Hussein's regime. However, no such weapons were ever discovered in the country.

Hundreds of thousands of people were killed and Iraq's infrastructure was destroyed following the US-led invasion and subsequent occupation of the country.
