Two killed in US drone strike in Afghanistan

9/30/2014

At least two people have lost their lives in a US drone attack in eastern Afghanistan.

According to reports, the airstrike was carried out in Laghman Province. This is the fifth deadly drone attack in the country over the past week.

The US carries out targeted killings through drone strikes in several Muslim countries, such as Yemen, Pakistan, Afghanistan and Somalia.

Washington claims the targets of the drone attacks are militants, but local officials and witnesses maintain that civilians have been the main victims of the attacks over the past few years.

The Afghan people and the country's officials have protested about the civilian casualties on numerous occasions, but the US drone attacks continue unabated.

The United Nations and several human rights organizations have identified the US as the world's number-one user of "targeted killings," largely due to its drone attacks in Pakistan and Afghanistan.
