## Ukraine: New World Odor - Shocking Conspiracy to Hide a Genocide

02.11.2014 00:37

Ukraine: Hundreds of women have been found with bullets in their skulls, most of them have been raped. Prisoners falling into the hands of fascist junta forces are tortured, abused and murdered execution style after suffering beatings and starvation. There is a humanitarian crisis in Novorossiia but Russian aid is hampered.

At this moment, an orgy of fascist/Nazi brutality, murder and destruction is going on in the former Ukraine, now the independent State of Novorossiia. When installing its puppets/trained agents as the "government" in Kiev, overthrowing the government democratically elected by the people, the west declared that this entity was a paragon of democratic values and new-found

dignity. But since that time, the fascist junta has been anything but democratic, let alone displaying any semblance of dignity.

They have been holding their own people hostage in an ongoing gas war with Russia, withholding payment for their bad debts and pretending they are still entitled to special privileges for pricing.

All opposition is brutally suppressed. Fights go on in the legislative body, people are assaulted, robbed and beaten in the streets and thrown into garbage cans. Many are kidnapped, either forced into military service or just killed/tortured...never to be seen again.

Can any reader here not feel utter disgust for the Kiev junta forces and its backers of the New World Order, the almighty self-proclaimed "international community" when seeing this? Can anyone think of covering it up, instead of prosecuting the war criminals? Does anyone here think that an illegal "government," using its resources for death and destruction, deserves any sort of financial or military support?
