ICOR-Resolution

Fight the NATO war against Libya!

20th March 2011

4/25/2001

From 18 to 19 March 2011, the UN Security Council gave the legitimization for the war against Libya at the instigation of the US and NATO imperialists.

While the imperialists, especially those of the USA and EU, did not undertake anything against the reactionary potentates in the Arabic countries and have actively participated in the extreme exploitation and oppression of the working class and the broad masses, the so-called “protection” of the rebelling masses is now being taken as pretext to place Libya under the immediate control of the NATO.

The first air raids by French, British and US fighters have already taken place and 'Tomahawk' cruise missiles have been fired on the part of the USA and Great Britain. The deployment of ground forces is being directly prepared.

All this demands the protests of the international working class and the world's population.

We mainly stress that the struggle against the reactionary potentates has to be developed into an anti-imperialist struggle against those persons behind them in the imperialist centers. A liberation from exploitation and oppression under the shield of the imperialists is not possible. The imperialist aggressors have no business being in Libya.

Our solidarity is with the just rebellion of the masses! We support the road of the democratic revolution on the way to socialism as the way out of starvation, misery, war, exploitation and imperialist division and vileness.

- **Immediate stop of the NATO aggression against Libya!**
- **Solidarity with the democratic uprisings in North Africa and other Arabic and African countries!**
- **Long live the anti-imperialist struggle of the working class and the peoples!**
- **Workers of all countries, unite!**
- **Workers of all countries and oppressed peoples, unite!**
