## Messages of Solidarity with Italian Communists by the International Communist Movement

Dear Comrades,

5/21/2011

the persecution against (new)Italian Communist Party, the Association of Proletarian Solidarity, the CARC Party, and particularly the repressive action started in 2003, goes on. From 2008 to 2011 we have received many messages of solidarity by Parties and Organizations of the International Communist Movement. You may find below those of **CEBRASPO – Brazilian Centre of Solidarity to the Peoples**, **Communist Party of Greece (marxist-leninist)**, **Kommunist Party Of Czechoslovakia – Worker Party Of Czechoslovakia**, **MLCP of Turkey/Northern Kurdistan**, **Liga Operária (Workers League - Brazil)**, **Marxist-Leninist Party of Germany — MLPD**, **International Committee against Disappearances (ICAD)**, **We Want Freedom Campaign**, **GML/Rode Morgen**, **Left Radical of Afghanistan**, **Coordination Council of the Worker`s Movement of Ukraine**, **National Democratic Front of the Philippines**, **African Workers` Trade Union of Senegal**, **Party Red of Norway**, **Joint Coordinating Group of the International Conference of Marxist Leninist Parties and**

**Organizations (ICMLPO), Youth Communist League of Mexico, Pakistan Labour Federation.**

Also thanks to this international solidarity, in July 2008 we won an important battle. To strengthen this solidarity will make us win the next battles, starting from the trial in Bologna on next 25<sup>th</sup> March. That is why we ask you to send messages to the National Center of the CARC Party ([resistenza@carc.it](mailto:resistenza@carc.it)) or to the International Department of the CARC Party ([carc.int.dept@alice.it](mailto:carc.int.dept@alice.it)).

We also ask you to sign the call against communist persecution in <http://www.petizionionline.it/petizione/no-alla-persecuzione-e-alla-messa-fuori-legge-dei-comunisti/4123>. These signatures we are beginning to collect on the web will add to the more than eight thousand signatures we collected in 8000.

**Your solidarity will help to strengthen a bulwark of the International Communist Movement in the imperialist countries.**

Comradely,

**Long Live the International Solidarity!**

**CARC Party  
International Department**

To our comrades of CARC and ASP,

We, from Brasil, would like to express our solidarity to the 12 comrades, leaders of the Association of Proletarian Solidarity (ASP), from the Party of the Supporting Committees to the Resistance for Communism (CARC) and the members and leaders of the (new) Italian Communist Party (n)PCI, who were indicted and whose hearing will take place on May 13th, in Bologna, Italy.

We believe this lawsuit affects not only those who declare themselves communists and work to impel a strong communist movement in Italy but also all those that have been criminalised for fighting against oppression and exploitation. Among them are the factory workers, unionists, students and so on. Such a lawsuit is the proof that the right to contestation and organization is not respected by the Italian ruling classes, afraid to lose their unlimited privileges and their power.

In the colonial and semi-colonial countries like Brasil, fascism has always been the path used by the local reaction and imperialism for maintaining their exploitation and rule. That is why in our country the cruel repression to the people's movement and mostly to the combative peasant movement -which has been criminalised by the reactionary press at the service of the landownership - has been growing more and more.

At this very moment in which the imperialist capitalist system endures a deep structural crisis, in the central countries, like Italy, fascism comes up as an attempt to suffocate the revolutionary people's struggle. Thence, the criminalisation of revolutionaries, communists, democrats and for that reason the arbitrary imprisonment, tortures, the increase of repression and lawsuits.

We firmly repudiate, therefore, the persecution made by the Italian authorities to the comrades who are neither terrorists nor criminals but just aim at a better new world and who fight for true democracy and justice in their country.

For the legitimate right to contestation and organization!  
For the end of the lawsuit against the 12 comrades!

Rio de Janeiro, May 5th, 2008.

**CEBRASPO – *Brazilian Centre of Solidarity to the Peoples***

## **Solidarity message of the Communist Party of Greece (marxist-leninist)**

On behalf of the Communist Party of Greece (marxist-leninist) we convey our strongest support and solidarity to the Italian communists and anti-imperialists who are facing these days, once more, judicial persecution by the Italian state.

We support the international solidarity campaign to the persecuted activists of CARC and the (new) Italian Communist Party and the mobilization that is being organized in Bologna in the 13<sup>th</sup> of May; we also sign the appeal you have sent.

We denounce to all progressive people in Greece, the persecutions by the Italian state and the anti-communist hysteria and we demand that it stops immediately.

Communist Party of Greece (marxist-leninist)

### **To the Public Prosecutor Giovagnoli and to the Judge for Preliminary Investigation Zaccariello of Attorney of Bologna**

I undersigned Arnljot Ask formally protest against the persecution the Italian magistracy carries out against the dissent, the freedom of expression and association.

In particular, the Public Prosecutor Giovagnoli continuously utilizes clearly political crimes, introduced in our order by fascism, as that of subversive association and against Communist political organizations (i.e. the trial against the (new) Italian Communist Party and the Party of the Committees to Support the Resistance - for Communism) and against members of the movement of protest of Bologna (i. e. the movement for the self reduction of the university catering and of the cinema charged of subversive activity for having occupied a university room and for some protests at the town council).

While Giovagnoli persecutes as "terrorists" the Communists and the students guilty for having occupied a classroom, the impunity is guaranteed to the ones responsible for the most ferocious deeds at Genoa in 2001 (beatings, tortures, and the killing of Carlo Giuliani), and, besides, there have been the hardest requests of condemnation for the people who demonstrated at the G8, the requests of condemnation for Rebel South, the inquiries against the Slai Cobas for class trade union and the preventive dismissals against the struggle vanguards (Fiat SATA of Melfi and Fiat of Pomigliano).

The attempt to use the scarecrow of "terrorism" for these attacks on Communists and on people who protest brings us back sad memories, when Mussolini and who supported him firstly outlawed Communists and then eliminated every party and the Parliament itself, when the fascist were calling "bandits" the Partisans (most of whom were Communists) who fought to free Italy from Nazi-fascism.

The many judiciary inquiries against who has worked for the (n)PCI, against the CARC Party, the Association for Proletarian Solidarity and their sympathizers and helpmates are a clear violation of any democratic principle. They are an attempt, by now no more too much concealed, to outlaw Communism.

I therefore send this letter to protest and to reaffirm my indignation and my concern for the reactionary and persecutory work headed by the judge Paolo Giovagnoli and the Attorney of Bologna, attacking the very fundamental principles of the Italian Constitution as regards the freedom of political association and organization.

I invite the Association Democratic Magistracy, of which judge Giovagnoli is member, to take a stand against this antidemocratic stray.

The preliminary hearing that will be held at Bologna against 12 Communists is a serious deed and must be strongly rejected.

We ask therefore the judge Rita Zaccariello to not support and enforce the anticommunist and reactionary operation carried out by the Public Prosecutor Paolo Giovagnoli.

### **The NDFP Condemns the Unjust Trial**

### **of the 12 Italian Comrades of CARC, ASP and nPCI**

On May 13, 2008, twelve (12) leaders of the Party of Support Committees to Resistance for Communism (CARC), the Association for Proletarian Solidarity (ASP) and alleged leaders of the New Communist Party of Italy (nPCI) are facing trial on the spurious charge of "subversive association with the aim of terrorism". The National Democratic Front of the Philippines (NDFP) condemns the Italian authorities for staging this mockery of justice and extends its solidarity and support to the accused comrades.

For more than twenty years the reactionary Italian state authorities have carried out political repression against the "caravan" of the nPCI through surveillance, house searches, sequestration of materials, theft of money, threats, and preventive arrests.

The CARC and the ASP leaders are being put on trial because they are Communists and have openly declared to support the project of the nPCI to make Italy a new socialist country. They have also been active in arousing, organizing and mobilizing the masses of workers and other toiling people in Italy. They have been active in the popular movements No Dal Molin (against the Nato base in Vicenza) and NO TAV (against the High Speed Trains) and against the continuous dismissals of the most militant workers in FIAT of Pomigliano and FIAT Sata of Melfi. Their leaders were also at the forefront of the protest actions on the issue of garbage in Naples and in all Campania.

This action of the reactionary state authorities follows the trend towards fascism in many imperialist countries as a result of the grave socio-economic crisis afflicting the world capitalist system and the growing restiveness and resistance of the workers and other toiling masses. The present crisis is the worst since the end of World War II. The imperialists themselves, including their ideologues and propagandists, admit that the current conditions of global recession generate social unrest and political turmoil.

The conditions of socio-economic and political crisis in the advanced capitalist countries are worsening and are pushing the working class and the rest of the people to rise in resistance. Millions of migrant workers have also risen up against the criminalization and harsh conditions that they suffer. The workers and other toiling people are rising up against the loss of job tenure, the decrease of jobs, the reduction of incomes, the lack of pension, health insurance and other social benefits and the continuing erosion of workers' rights. The monopoly bourgeoisie are increasingly hard put in devising new ways for deceiving and appeasing the people. More and more the monopoly bourgeoisie are turning to fascist measures to oppose the mass movement of the proletariat and non-proletarian masses.

The monopoly bourgeoisie have used the so-called threat of terrorism as a pretext to take repressive measures and enact repressive laws against Communists and progressive activists whom they consider as the long-term threat to the capitalist system of oppression and exploitation. Many European states have followed the lead of the US in enacting laws similar to the USA PATRIOT ACT and putting up arbitrary terrorist listings. In Europe, right wing parties have tried to initiate a campaign for the outlawing of Communism and Communist parties.

The political persecution being perpetrated by the reactionary Italian authorities is part of this trend to fascism developing in many capitalist countries as a result of the general crisis of capitalism. This trend must be exposed and firmly opposed by all progressive people and those who uphold democracy.

### **Statement of the Left Radical of Afghanistan**

To: the Public Prosecutor Giovagnoli and to the Judge for Preliminary Investigation Zaccariello of Attorney of Bologna

Dears,

We were informed about the cruel and shameful act of Italian government against communists in Italy. In Afghanistan most of people image the western capitalist's governments as symbol and supporters of "democracy" while they have been created a puppet Islamic regime here in Kabul for us which is really based on religion and is not secular government. The Italian government besides giving shoulder to US imperialism in Afghan tragedy of occupation, involved to create and strengthen our judicial system in Afghanistan!!! While it (Italian government) and its judicial system runners violate the basic principle of democracy openly in its own territory!!!

Fighting and defending for the economical, political and social rights are the right of any citizen. And fortunately the Italian workers, scholars and people possess a historical proudly background which inspire other progressive movements in the rest of the world. You are not supposed for making happy Bush administration, make dirty the significant struggling history of Italian people.

Socialism or communism has opened its way in workers and people, it has been materialized, and its coming is inevitable. By killing, imprisoning and deprivation from political rights of communists will not make able the criminal perpetrators to stop the movements. The brutal and discrimination action against communists will cause revengeful sentiments and will create more popular and stronger active movements and parties not only in Italy but also in the world.

We strongly demand from Public Prosecutor, Judge an all Italian government authorities to stop the persecution of communists and be loyal to the basic principle of democracy as they claim.

-Stop communist persecution!

-We support our communist friends in CARC, n PCI and ASP!

-Struggling and fighting for workers rights and socialism is a democratic right of citizens!

-Terrorists, who must be sentenced, are those whose occupation and wild military presence made Iraq and Afghanistan into a hell for their citizens, those who bombard our innocent people daily.

Dear

Comrades,

We wish to express to your party and comrades the solidarity of our organization in your struggle, especially against the political persecution by the Italian state. With reason you point out the contradiction with the de facto impunity of a lot of corrupt and Mafia connected politicians and businessmen. All over Europe, also in the Netherlands, states try to extend their legal and illegal opportunities of repression against and control over the masses and their organisations. Obviously they are conscious that resistance will increase more and more. That in Italy members and sympathizers of your party are so openly brought to court, is certainly caused by the fact that the bourgeoisie knows that marxist-leninist are their most consequent enemy. We wish you a lot of strength in your struggle. Keep us informed, so we can make public in the Netherlands also the undemocratic deeds of the Italian government.

With

comradely

greetings,

### **Solidarity Message to the Party CARC, Italy**

Dear comrades,

We are deeply outraged about the fact that the notorious judge Giovagnoli has summoned 12 comrades in Bologna for 13 May 2008 for preliminary investigations for a trial, among them Guiseppe Maj and Guiseppe Czeppel from the (new) Communist Party of Italy (nCPI), and a number of leading members of the party CARC.

They are accused of „*subversive organization*“ (according to §270b of the Italian criminal law) because they have allegedly “*promoted and participated in the founding of (n) CPI .*”

The ruling powers in Italy are afraid of the consolidation and higher development of the working-class and people’s movement and of the strengthening of the Marxist-Leninists who are struggling for a socialist perspective. That is the reason why they want to criminalize any attempt to build up a new communist party.

This is being justified with the absurd lie that the accused persons supposedly have “*terrorist goals*”. This is in line with the declaration of the EU-Council which declared Marxism-Leninism to be the “*real cause of terrorism*” with the aim of criminalizing Marxist-Leninist organizations on this basis.

We are certain that you will even intensify your efforts to spread genuine socialism among the working class and the broad masses of people in Italy. It is exactly the right response that you organize broad resistance against this oppression. We are with you at your protest demonstration on 13 May in Bologna and wish you every success!

The solidarity of the MLPD is yours in this struggle and we demand the immediate stop of proceedings against the 12 comrades in Bologna.

We will make these scandalous proceedings known among the democratic public in Germany and will call up for solidarity. The working class will not allow its right to organize and build up revolutionary parties be denied!

Workers of all countries, unite!

Long live international solidarity!

### **Declaration of Solidarity**

**fo the immediate stopping of the criminal proceedings against members and sympathizers of the CARC Party, the (new) Italian Communist Party and the Association for Proletarian Solidarity**

On next 5<sup>th</sup> November in Ancona (Italy) it will be held the preliminary hearing for the Tenth Judiciary Proceeding the Italian Authorities framed up against the “caravan” of the (new) Italian Communist Party. The public prosecutor Marco Pucilli of Ancona leads the inquiry. Comrades of the Party of the Committees to Support Resistance -for Communism (P- CARC) and of the Association for Proletarian Solidarity (ASP) are charged with “slandering the Public Prosecutor Paolo Giovagnoli”, because they called him with his true name, the “new Torquemada”.

The judiciary proceeding the Public Prosecutor Marco Pucilli frames up goes with the appeal to the Supreme Court the judge Giovagnoli did against the “non – suit” judgement of the Judge for the Preliminary Hearings Rita Zaccariello on 1<sup>st</sup> July. Also the General Attorney of Bologna did an appeal as regards the matter, and this is a deed absolutely exceptional and extraordinary.

The many judiciary inquiries against who has worked for the (n)PCI, against the CARC Party, the Association for Proletarian Solidarity and their sympathizers and helpmates are a clear violation of any democratic principle. They are an attempt, by now no more too much concealed, to outlaw Communism.

The Joint Coordinating Group (JCG) of the International Conference of Marxist Leninist Parties and Organizations expresses its solidarity, condemns the ongoing repressive action and demand the immediate stopping of the proceedings.

The JCG takes the opportunity to declare its solidarity with Paolo Babini, representative of the current main coordinating organization in the JCG itself, the CARC Party, Italy, who is among the comrades against whom the appeals to the Supreme Court by the judge Giovagnoli and the Bologna General Attorney are conducted.

We condemn and contend such repressive actions as they are expressions of an anticommunism increasing in the imperialist countries, aimed to deny the freedom of propaganda and organization the Communists conquered and expression of the aim to restore the reactionary and fascist regimes that the Communists and the people's masses fought and won paying with their lives.

The ruling power in Italy are afraid of the consolidation and further development of the revolutionary and the working class and people's movement and of the strengthening of those forces who are struggling for a socialist perspective.

The struggle against "Anti-terror" slander and anticommunism affords the organizing of a broad movement for the struggle to maintain and extend democratic rights, and to inform the broad masses about these proceedings and to build a bulwark against any further actions.

We consider this and any other repressive action against any participant in the Conference as an attack to the Conference itself, and as such we are committed ourselves to oppose it.

Long live the international solidarity!

To CARC Party,  
Comrades:

The permanent State persecution against the Italian proletarian forces, the communists, and in concrete the persecution against the (new)Communist Party of Italy, the CARC Party and Association of Proletarian Solidarity is a very clear prove of the fierce counterrevolutionary policies and the class character of the Italian State. We, the Class Youth League from Mexico, extend to all the persecuted communists our full and proletarian support, in particular to our

international comrades Giuseppe Maj, Pietro Vangeli, Giuseppe Czeppel, Manuela Maj, Massimo Amore, Marco Proietti Refrigeri, Paolo Babini. This lawsuit is State tactic trying to criminalize people that fight against oppression and exploitation, using laws created by the fascists.

The fighting of the Italian communists against the systematic repression of the ruling classes is a big example for us and we will denounce this repression in our country.

**Down with the systematic State repression against the Italian Communists!**

**Withdraw of all the lawsuits against Giuseppe Maj, Pietro Vangeli, Giuseppe Czeppel, Manuela Maj, Massimo Amore, Marco Proietti Refrigeri, Paolo Babini!**
